

Control, allocate & recover your telephone expenses.

Telecommunication expenses are becoming more complex and difficult to control with features like internet access, ISDN, digital tracking, multiple carriers, telco feature codes, voice mail, cellular and fax phones, etc. Dyna Lync Telecom's Call Accounting allows you to take control of your telephone system. Whether you are allocating telephone charges, billing hotel guests, clients or projects, monitoring telephone traffic, or tracking telephone abuse and fraud, Dyna Lync Telecom has just the right system to fit your needs.

Gain control over telephone costs

Six phones or 6000 – sales, financial, retail, manufacturing or health care – one office or many – Dyna Lync Telecom costs your calls and can display, print or email reports instantly to help you manage and control your phone expenses. Dyna Lync Telecom tracks telephone expenses right back to their source. Dyna Lync Telecom's Traffic Reports help you determine the most cost-effective combination of telephone lines and services. Dyna Lync Telecom's Equipment Inventory Reports track the location and help you allocate the costs of your telephone equipment. Dyna Lync Telecom ensures you get maximum performance from you telecommunication investment.

Allocate telephone charges to clients or projects

Charge back your clients... automatically. Capture and charge back phone charges to an unlimited number of client codes. Dyna Lync Telecom will add surcharges, mark-ups and taxes that you desire. You can recover telephone costs and bill for professional time spent on the phone. Call Accounting is sophisticated enough for the largest professional firms yet remains economical for the smallest firms.

Call Accounting

Generate revenue for hotels/motels

Let Dyna Lync Telecom generate revenue for you. Dyna Lync Telecom automatically adds your desired surcharge, mark-up and taxes each call and provides up-to-the-minute reports on demand. Full audit and profit reporting shows you just how much revenue Dyna Lync Telecom is generating. Dyna Lync Telecom interfaces with Property Management Systems for a fully integrated solution.

Track and control telephone abuse

Let Dyna Lync Telecom's Fraud Squad help you protect your telephone system from abuse and fraud. Fraud Squad examines your calls and notifies you by alarm, email, or pager of suspect calls. Fraud Squad Interrogator (for Nortel PBX's) can actually disconnect the call!

The Call Accounting Professional provides a full suite of flexible and user definable reports. All reports can be printed, emailed, faxed, displayed on the screen or written to an ASCII disk file. As soon as data is collected, a comprehensive suite of management reports are available, including:

- Organizational Hierarchy
- Extension Detail
- Corporate Summary
- Trunk Listings
- Account Codes
- Cost Analysis
- Authorization Codes
- Dialed Digit Substitution
- Equipment Listing

The highly regarded 5 star support services is bundled with the StradaTel Premium Call Accounting Professional product for the first year. Included with the five star support services is:

- Toll Free Access to Support Center
- Online Request portal
- Quarterly Newsletter
- Quarterly Health checks
- Patch and update notification
